

# International Organization of Masters, Mates & Pilots

Sun Communications Testimonial (June 2021)

Switching to Sun Communications for phones, eFax and internet service saved the organization a good amount of money. Along with cost savings we have also found that customer service has been excellent. Most communication companies make it very difficult to get in contact with someone to support your technical issues, but Sun Communications has been extremely helpful with resolving issues. Switching to Sun Communications was a very good choice for Masters, Mates & Pilots.
